If you want something, just say it You're being annoying
That's right saying things like that's useless when it comes to you
he looked like this during the first version of chapter one
Kuroda Kanbei
It's about Kanbei-san
Oh, that refreshing and gentle looking person
Yeah, but you know
Seems the one in charge likes Kuroda Kanbei
It's someone else... Will the people reading the first chapter starting in volume one get this?
chapter one is still OKed but in the end
because he looked so much like a monster in the original designs
Step away from the monsters
After
Before
